

2019 Lights of Christmas Parade Route Saturday, December 7, 2019

Please see Instruction on Reverse

INSTRUCTIONS for PARADE PARTICIPANTS

The Shannon Hospital Employee Parking Lot on North Oakes Street will be available to us at 2:00 p.m.

All parade entries must be in place no later than 5:00 p.m.

All entries must be lighted to participate in this parade.
The only exception is any vehicle pulling a lighted float.

Personal vehicles may be parked across the street in the parking lot by the Freshman Campus.

The parade officials will be wearing orange vests.
If you have questions when you arrive, please ask for assistance.

Each entrant will be given a number that will be placed on the passenger side windshield.

This number corresponds to the script and is not your line-up number.

The number will be written with liquid chalk which will not harm your windshield.

Please do not remove. Our broadcast announcers need to know who you are.

The parade must move at a walking pace with three car lengths between each group.
This is especially important because several groups will be on foot and we don't want to lose any participants.

Please Note:

There is a San Angelo city ordinance that **prohibits throwing candy from moving vehicles.** If you want to distribute candy to the spectators, it must be done by individuals who are walking along side your float or vehicle.
